### Presbytery of Maryland.

The Baltimore Sun of this morning, gives the following report of the proceeding of the Presbyterian church of this only belongs:

"The Presbytery of Maryland was convened at Rockville Wednesday by the retiring moderator, Il v. J. Nicols. There was no business transacted during the evening except the election of Ray. J.J. Bullock, of the Union church, Alex andria, the chaptin of the United States Senate, as moderator. The remainder of the evening was taken up with devotional extraises the congregation being large. Rev. Dr. Rutlick delivered a sermon from 6 h chapter of who believed in God are temples of the Holy

The woman was subsequently arrested, but

discharged, as it was proven that the child wis

AFFAIRS AT THE MINES .- The Camber and

News of yes orday says:

"Pursuant to announcement in Tuesday's News, the Koostz, Big Vein and Midlothian mines of the New Central Co. began work yesterday. The number of men employed, including laborers and outside men, is about 500. The company will, for the present, thip only by the Penusylvania Railroad, as the causl is not navigable and ears on the B. & O. canuot be obtained. It is now pretty definitely known that none of the other companies will resume at present."

The Times says : "The New Central Coal Company is mining at 50 cents per ton. We are informed that the Blaen Avon Coal Company are also at work. The ccal is being shipped to Amboy over the State Line, the B. & O. Co. refusing to supply hoppers. One thousand tons of enal were shipped jesterday. The "drivers" struck for \$2 a day, but, we believe, concessions were made on both sides and work is now resumed,

THE FAIR, -The Loudoun Mirror says :-"The Alexandria fair last week was a decided success. The main building was filed to over flowing with every conceivable article that could add to its attractiveness-all arranged with great taste, and showing off to the best advantage. The exhitition of stock was not as full as it might have been, but made up in quality what it lacked in quantity. Taking all in all the exhibition must have exceed even the mest canguine expectations of its managers, while in s pecuniary point of view it could not have been otherwise than gratifying. Throughout the tour days of its continuance, notwithstanding the dust and heat, the grounds were literally jammed-upon occasions it being estimated that not less than from \$10,000 to 12,000 people were packed away in the somewhat contracted enclosure; which latter, by the way, is the greatest drawback to the concern.'

Fine Drilling,-During the visit of the Gate City Guards (the military company from Atlanta, Ga.,) to Washington, several gentle mea cf a military turn of mind from this city witnessed the icspection and parade, and say that for proficiency in drill, both in manual and evolution that company cannot be excelled, not even by the Washington Light Infantry. They also say that the applause with which thei difficult movements were greeted was tremed dons, and that the large crowd who wirnessed the drill was enthusiastic ov r the southern

THE MISCEGENATION CASE. - As will be seen by the cours proceedings, the negro wo man, Milly Motley, convicted of marrying a white man, Fred. Olden, has been sentenced to imprisonment in the penitentiary for two years-the term fixed ty the jury-the court having refused a new trial. In the case of O den a not pros. was entered, the indic meat against him reading "for marrying Nellie Motley" instead of Millie, and he will be tried again this evening before the Mayor on a new warrant.

SCARCITY OF COAL .- Almost the entire supple of Camberland coal which had been accumulated on the different wharves during the season, has been disposed of, and as there are no shipments being made from the mines the scarcity is already being felt. The large piles usually to be seen at the different agencies have almost entirely disappeared, and it is exmened that to meet the home demand the coal will have to be brought here over railroad. which will asseid rably increase the cost to corram'is.

SECOND ATTACK -A disputeb was received in this city last argut from Memphia by Mr. B. K. I'ME WEATHER - The remarkably line weather which we have had since the Ist of October continues, and the thermometer keeps up in the eightics-at one time to-lay registering S5 in the shade. A light rain fell about mean to day, but it did not epol the temperature, which is as warm as that of mid-sammer.

WHEAT -There has been but little wheat coming to market during the past few days, the for mers in this section, taking advantage of the fine west her, being all busy seeding. Prices are good, and, as there is no fear of a decline, light receipts may be expected until after

REVIVAL .- The protracted meeting which is in progress in the Baptist Church, conducted by the paster, Rev. Mr. Peciek, and Rev. Mr. Wher ou, of Lury, Va., continues with unabated interest. One period went to the mourners' beach and three rose for prayer last night.

Overens .- The supply of ogeters is fair, there being receipts by all the steamers, but the quality, owing to the warm weather, is not as good as is usual at this time of the year. The prices are reasonable.

HALF FROG, HALF Boy .- One of the most remarkable morairesities known to the medical men has been discovered to exist a few miles from Chiergy. The lusus nature is an almost exact counterpart of the frog, with hands and converses with some signs of rations i'y.

It exhibits a decided preference for the water, and at night, when the cronking of the frogs is heard, this would be squatio peals forth its strange, uanatural sound, which the father, a respectable negro men in the country, declares is almost the same as that of the animal that this monstrolling of humanity and animal so much assimulates, only the noise made by the latter is coarser and stronger.

This remarkable being is about four years old, and weighs about seventy five pounds. Its parents lived at the time of its birth in a marsby place, and medical men attr bate the ringular form it assumes to the fact that while encionte the mother's mind was occupied in thicking of the fregs in the neighboring ponds.

The case is attracting a great deal of attention, and this singular phenomenon has been visited by a great many medical men from a distance. Prominent Philadelphia physicians are now in correspondence with the father of this uanatural ereature, and will probably visit Chicago and make a critical examination .-Chicago Times,

STRANGE EFFECTS OF A SHOCK, -- As accident, with a serious and rather singular result, happened to an arrist at Sceaux, Prace, a few days ago. He had been standing in a should floor bale my, and, while reaching over to look at something in the street, had lost his balance and fell to the greatel. Fo the great surprise of those who may to his assistance, he got up unaided, and seemingly without bodily hurt. The sheek, however, had preduced a strange effect upon his mental powers. Another disagreeable result of the mishap was that the sufferer discovered he could not remember substantives, and when wishing to refer to any way to these parts of speech was forced to employ a periphrase. Medical care, under which he was speedily put, has as yet produced no alteration for the better in his conparticular, and whose unfatniliarity with her was so apparent that it attracted the attention of the other passingers. THE VENOMOUS BREATH OF MALARIA does not affect the systems of these who use Hos-tetter's Stomach Bitters as a precaution agains! it. Nor is it less useful as a remedy where intermittent and remittent fever has fully estab-lished itself, in consequence of a neglect of praventive measures. It checks the paroxysms with astonishing certainty, and eradicates this type of disease, even in its most invotorate form. This medicine is an especial boon to the emigrant population of the far West, where fevers of a maiarial type are particularly provalent, but the recognition of its merits is so far from being limited, that it is known and appraised at its true value throughout the length and breadth of America. Travelers by land sea, miners and sojourners in unhealthy localities, esteem it highly, and are its most constant purchasers, and in many a rural household far and wide it is the chosen family specific.
